- High quality concierge bridging service designed to bring together multiple participants from different locations into a single conference.
- Participants can be brought in by videoconference system, telephone, mobile phone or even by PC/laptop and webcam.
- The service supports High Definition (HD) videoconferencing.
- The service supports ISDN, IP and public internet connections.
- The service supports PC/laptop content, DVD/VCR content and other media.
- Our operators “meet and greet” participants at the start of the conference to ensure everything has been set-up to suit.
- Meetings can be scheduled for any time of day or night and for any duration.
- Conferences may be set up with just a few minutes notice.
- Book by telephone or by email. All bookings are confirmed in writing.
- A FREE demonstration of the service is available
